Sun Blocker

Blue Light Protector
Invisible Finish

Broad Spectrum
UVA/UVB Protection

EnergiNius

(A Product by Gattefosse, France)

Protects mitochondrial function of ATP synthesis.
Maintains cellular respiration and allows cells to move.
Blue light/artificial visible light protector

Niacinamide

Niacinamide increases mitochondria function
of ATP synthesis by 21% in skin cells.
Prevents the skin from losing water, i.e,
acts as a skin barrier
Blue light protecting agent

Ethylhexyl Methoxycinnamate -UV Filter

It is the most common cinnamate and UV
filter used globally. It is frequently used in
combination with other UVB absorbers to
achieve high SPF values.

Butyl Methoxydibenzoylmethane

It is a sunscreen ingredient that can protect against the
entire range of the sun's UVA spectrum from 310nm to
400nm. The FDA approved avobenzon's use as a
sunscreen agent only after more than seven years of study.

Benzophenone

It is a photo-stabilizer and a sunscreen agent. It absorbs UVB
and short UVA rays. By absorbing UV rays it also helps pre-
serve the integrity of other ingredients, preventing their
deterioration under the sun.

FOR BOTH INDOOR & OUTDOOR APPLICATION

Source of UVA / UVB

SUN

Sources of blue light include

PHONES

TV

LED
LIGHTING

Block the Damage to the skin with Complete Hydration & Anti-Ageing Effect

GREEN TEA EXTRACT

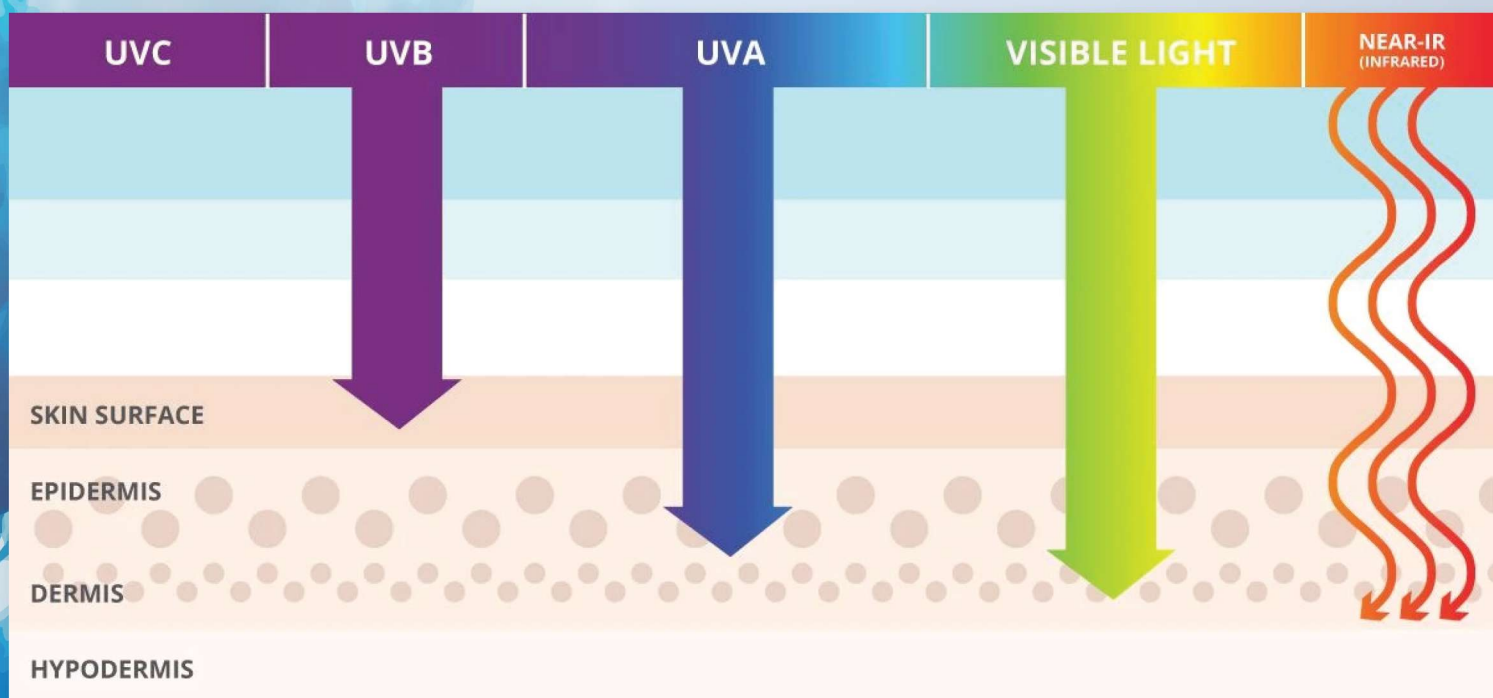

- It protects the skin from UV rays.
- Epigallocatechin gallate blocks collagen crosslinking that accelerates the aging of cells.

PHOSPHOLIPIDS

- They are natural component of cell wall and when supplied from outside they are readily accepted by body.
- They have repairing, protecting, film forming and hydrating effects on skin.

ALLANTOIN

- Allantoin helps to reduce irritation.
- It provides UV protection, moisturize and encourage healthy cell development.

FOR LUMINOUS EVEN SKIN TONE

Glu-Nexa[®] Cream

Arbutin 1%, GSP-T 1%, Vitamin F 0.25%
Vitamin E Acetate 0.25%, Sodium Ascorbyl Phosphate 0.25%
Glutathione Red 0.1%, Tranexamic Acid 4%

For Luminous Even Skin Toning &
Anti-Ageing Cream
with Tiny White
For all skin types

For luminous even skin tone

Safely inhibits pigmentation process

Reduces melanin synthesis

Antioxidant action that prevents signs of ageing

Ensures luminous even skin tone

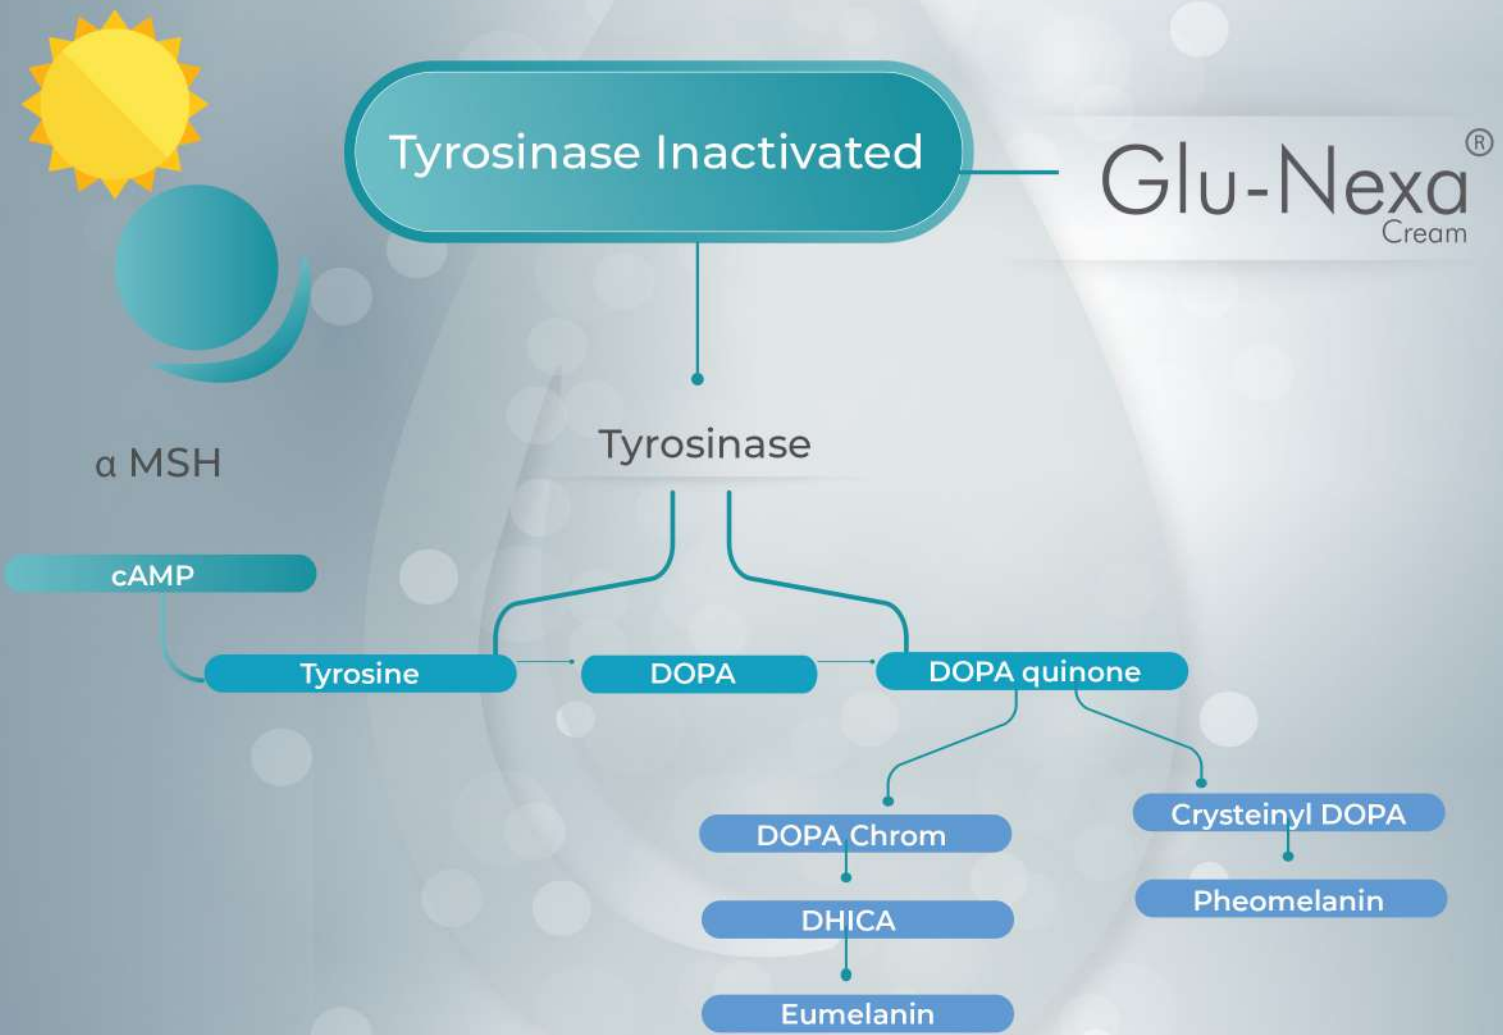

Protective properties that make it ideal for daily use

FIGHT PIGMENTATION & DON'T LET AGE, POLLUTION OR STRESS AFFECT YOUR GLOW

Glu-Nexa[®] Cream

Melanogenesis Process

Glu-M

Arbutin 1%, GSP-T
Vitamin E Acetate 0.25%, Sod
Glutathione Red 0.1%

GSP - T

Powerful antioxidant complex combining water-soluble Swiss grape seed procyanidins & oil soluble natural tocopherol.

(Procyanidins are potent antioxidants found in high conc. in Swiss Pinot Noir grapes)
Shows synergistic effect & greater antioxidant activity with Tocopherol.

Nano

NanoWhite is a liposome combining powerful

- Ar
- G
- Ascor
- Glut
- Vit

It regulates the pigment complement

Arbutin

Natural arbutin from bearberry powerfully inhibits tyrosinase, the key enzyme of the pigmentation process.

Arbutin 1% concentration for pigmentation.

Arbutin is glycosylated hydroquinone which prevents the melanin formation.

FOR THE GLO

Nexa[®] Cream

1 %, Vitamin F 0.25%
Sodium Ascorbyl Phosphate 0.25%
%, Tranexamic Acid 4%

NanoWhite

Liposomal preparation
of whitening ingredients.
Ascorbyl
SAP-T
Tranexamic Acid
Glutathione
Vitamins
inhibit the melanin
production process through
multiple pathways.

Tranexamic Acid

A safe yet powerful whitening ingredient
ideal for reducing and preventing
pigmentation disorders.

A synthetic amino acid derived from lysine.

Effective to manage signs of melasma
discoloration.

Glutathione

Glutathione and Vitamin C reinforce
NanoWhite's activity with their whitening and
antioxidant properties.

It is potent antioxidant with anti-melanogenic
properties.

HOW YOU NEED

CAFEROOT[®]

— SHAMPOO —

With **AnaGain™**, **CAFFEINE**
& **Olive Oil PEG-7 Ester**

HOW DOES CAFEROOT SHAMPOO™ REVITALIZE HAIR?

AnaGain™ is based on organic pea sprouts. Stimulates hair growth at root by activating FGF-7 (targets genes to treat hair loss)

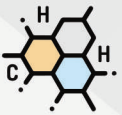

Caffeine helps to increase blood circulation to the scalp which promotes healthy hair follicles. Extends hair life cycle.

D-Panthenol smoothens out and strengthens hair structure and restores natural hair thickness

Cetrimonium Chloride helps to kill bacteria and acts as a detangler.

Niacinamide rebuilds keratin and enhances dry or damaged skin by reducing flaking & restoring suppleness.

Olive Oil PEG-7 Ester heals dry brittle and lifeless hair, reduces DHT production, nourishes and conditions the hair.

Works at the **ROOT** cause of hair loss

CAFEROOT[®]

— SHAMPOO —

With AnaGain™, CAFFEINE
& Olive Oil PEG-7 Ester

- Stimulates Hair Growth at root by activating FGF-7 and Noggin genes, which are the key targets to treat hair loss
- Stimulates proliferation of hair germ cells to trigger the anagen growth phase
- Encourages Natural Hair Growth
- Restores vitality for thicker and fuller hair
- Prolongs life cycle of hair follicle
- Enhances oxygen and blood supply to scalp
- Extends life cycle of hair and stimulates hair growth

Works at the **ROOT** cause of hair loss

CAFEROOT[®]

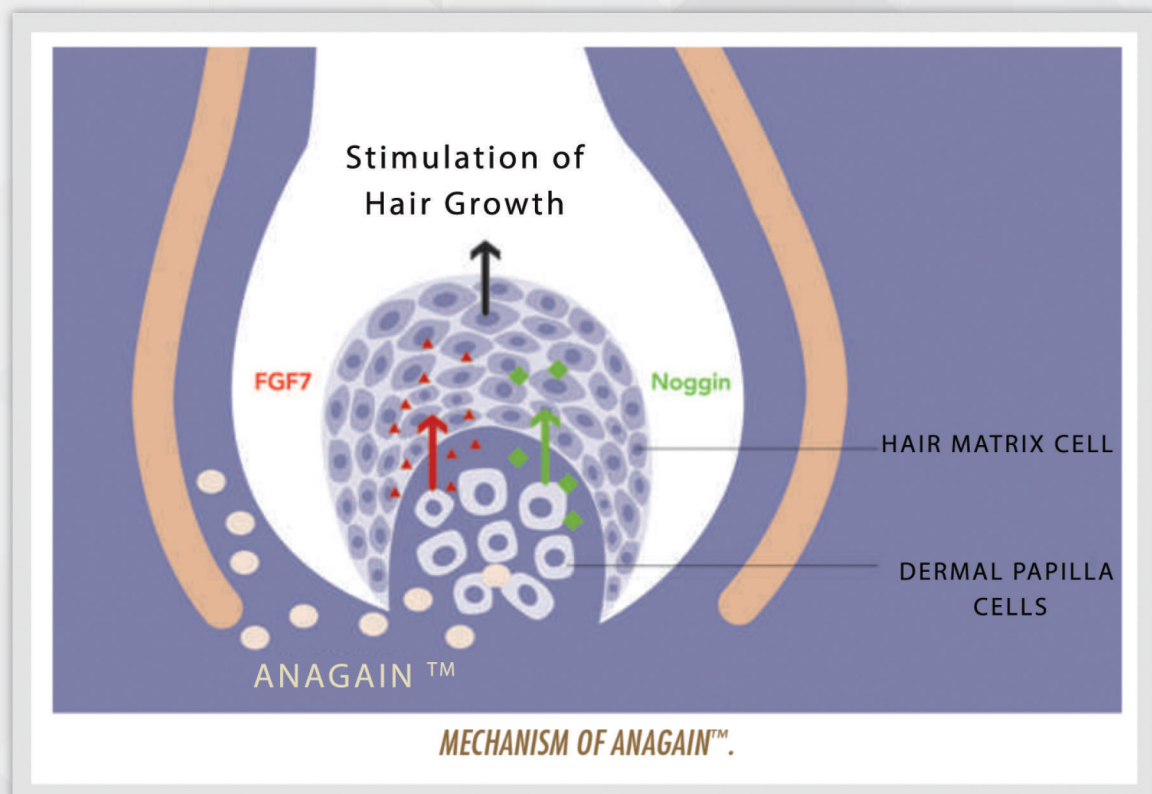

SHAMPOO

With AnaGain™, CAFFEINE
& Olive Oil PEG-7 Ester

Anagain, Caffeine, Niacinamide, D-Panthenol,
Olive Oil PEG-7 esters, Cetrimonium Chloride

WHY CAFEROOT SHAMPOO ?

- Stimulates hair growth
- Prolongs life cycle of hair
- Controls hair loss
- For androgenic alopecia
- Restores hair regeneration

Works at the **ROOT** cause of hair loss

CAFEROOT®

SHAMPOO

With AnaGain™, CAFFEINE
& Olive Oil PEG-7 Ester

AnaGain™

In a clinical study involving AnaGain™ it was shown that the anagen : telogen coefficient (proportion of active hair follicles to degenerating ones) could be improved from 4 to 7.2 corresponding to a 78% increase in hair growth in just 3 months.

AnaGain™ is thus a natural and sustainable contributor to fuller and thicker hair.

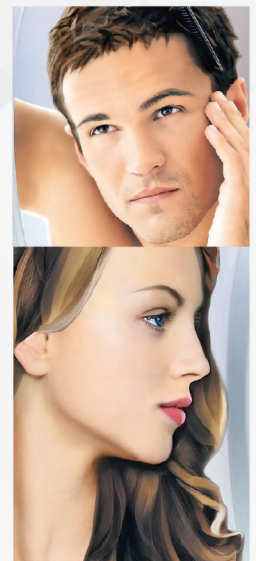

ADVANCED
INGREDIENT
AWARD
2014

BEYOND
BEAUTY
LAB

Caffeine

- Helps in management of Androgenetic Alopecia.
- Easily penetrates into the skin barrier.
- Caffeine impact on hair cycle regulation factor.
- Helps stimulate hair growth and stop hair loss. Block the effect of DHT in male hair follicle.

Works at the **ROOT** cause of hair loss

Biochemistry Technology
Co. Limited, Taiwan

Sun-Hat

Sunscreen Gel

Microencapsulated Sun Blocker
Broad Spectrum UVA/UVB Protection

Unique w/o/w **Nano Technology** that forms
a very consistent formulation with even spread ability.

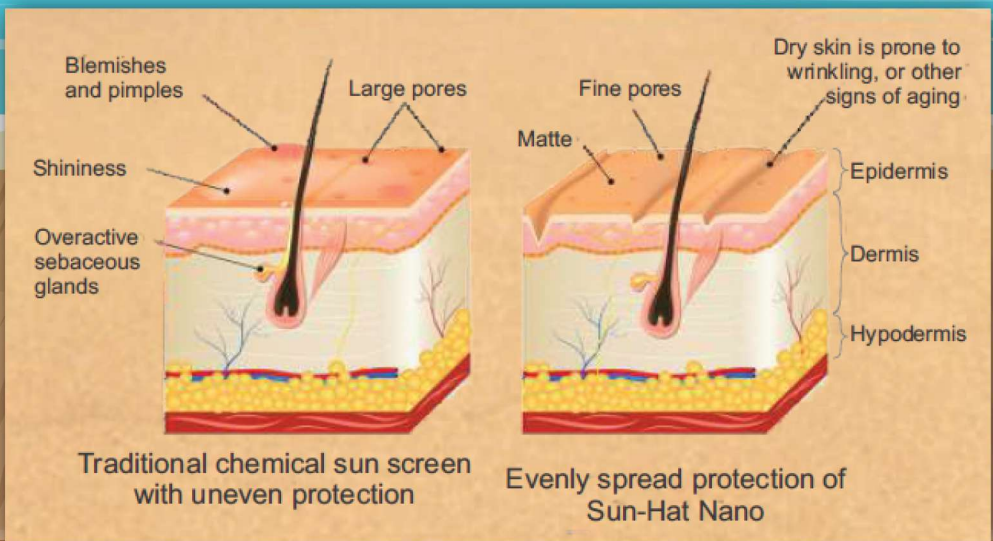

AVOBANZONE

- Absorbs full spectrum of UVA rays
- Blocks UVA 1 & UVA 2 rays

OCTINOXATE

- Protects from UVB rays
- Protects the skin from sunburn

The Protective Hat Against Sun

Sun-Hat

Sunscreen Gel

Microencapsulated Sun Blocker
Broad Spectrum UVA/UVB Protection

Octinoxate, Avobenzone, Oxybenzone, Allantoin,
Vitamin E, Phospholipids, Green Tea Extract

nano
TECHNOLOGY

With SPF 30+ PA +++ & Nano Technology

-  Provides extended broad spectrum protection against UVA &UVB radiations.
-  Provides 100% protection against 250nm-380nm UV radiations and more than 90% protection against 380-400nm UV radiations.
-  Carefully chosen ingredients having their independent role in making Sun-Hat Nanogel a truly **PROTECTING & NOURISHING** Sunscreen.
-  Oil Free, Double sphere encapsulation which doesn't absorb into the skin.
-  Does not leave white coat on skin.

The Protective Hat Against Sun

Sun-Hat

Sunscreen Gel

Microencapsulated Sun Blocker
Broad Spectrum UVA/UVB Protection

-  Oil Free
-  Double Sphere Encapsulation
-  Not absorbed into the skin
-  Provides refreshing and comfortable skin feel
-  Does not interfere in normal skin breathing

nano
TECHNOLOGY

Sun-Hat

Sunscreen Gel

Microencapsulated Sun Blocker
Broad Spectrum UVA/UVB Protection

- Provides extended broad spectrum protection against UVA and UVB radiations

- Provides 100% protection against 250nm-300nm UV radiations and more than 90% protection against 380-400nm UV radiations.

- Doesn't get absorbed into the skin

- Non-Irritant & Non-Oily

- Forms a thin layer of water resistant protection shield on the skin

- Allows the skin to breathe freely.

ano
TECHNOLOGY

- Nano Technology creates a very consistent formulation with even spread ability.

- Independent ingredients makes with Nanotechnology makes SUNHAT a truly **PROTECTING & NOURISHING** Sunscreen.

SPF
30+
PA+++

- Protects against the sun

- Longer and Safer Skin Residence Time

- Microencapsulated Sun Blocker

- Non greasy and Non Sticky in gel form

- Protects the skin from sunburns and tanning

- ONE & ONLY 72 HOUR MOISTURIZER -

Hanrich

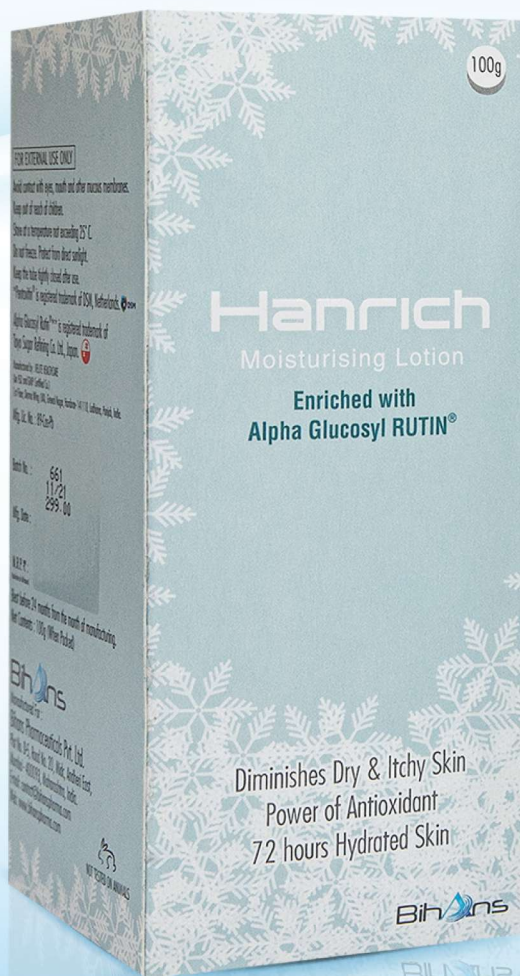

Moisturising Lotion with Alpha Glucosyl Rutin

**FIGHTS AGAINST
DRY, ROUGH & SCALY SKIN**

**SILKY SMOOTH SKIN WITH
NO STICKINESS**

**REDUCES ITCHINESS &
MAINTAINS SKIN ELASTICITY**

**PROVIDES 72 HOURS OF
COMPLETE HYDRATION**

HYDRATE, NOURISH AND PROTECT THE SKIN

- ONE & ONLY 72 HOUR MOISTURIZER -

Hanrich

Moisturising Lotion
with Alpha Glucosyl Rutin

*HANRICH provides **true hydration** to all facial areas & strengthens the **skin barrier function** with deep hydration for upto **72 Hours***

HOW DOES HANRICH™ PROTECT YOUR SKIN?

 **KOKUM BUTTER**
Emollient, Anti-Bacterial,
Anti-Inflammatory &
Anti-Oxidant for the skin

 **ALPHA-GLYCOSYL RUTIN**
Maintains elasticity &
resilience of skin.
Prevents pre-mature aging

 **PENTAVITIN**
Deep hydrating agent for
perfect skin resilience.
Lasts for up to 72 Hours

HYDRATE, NOURISH AND PROTECT THE SKIN

Glu-Nexa[®] Ex EXFOLIATE

Complete Body Wash

WITH BUILT IN SILICONE CLEANER

Foaming Brush exfoliates the skin & helps active ingredients penetrate better

Advanced Skin Depigmentation
Formula for Radiant Skin

Revitalizes & Energises the skin
with richness of Mineral Complex

Visibly improves skin texture &
provides clean & hydrated skin

BECAUSE YOUR SKIN MATTERS

WHAT ARE THE KEY INGREDIENTS OF GLU NEXA EX?

Dermawhite

Powerful skin brightening agent that fully respects the skin synergistic whitening action

Niacinamide

Regulates sebum production to block acne flareups & reduces inflammation

Pentavitin

Unique skin identical carbohydrate complex similar in composition to the endogenous

Sodium Ascorbyl Phosphate

Helps reduce signs of Aging & Hyperpigmentation

Licorice Extract

Inhibits the production Tyrosinase enzyme, responsible for melanin production

Vitamin E Acetate

Prevents Pre Mature Aging

Hyaluronic Acid

For smoother skin cells

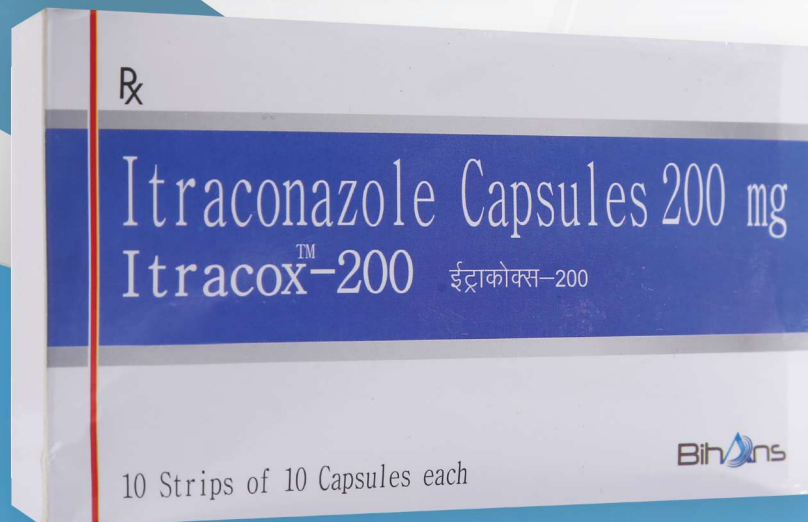

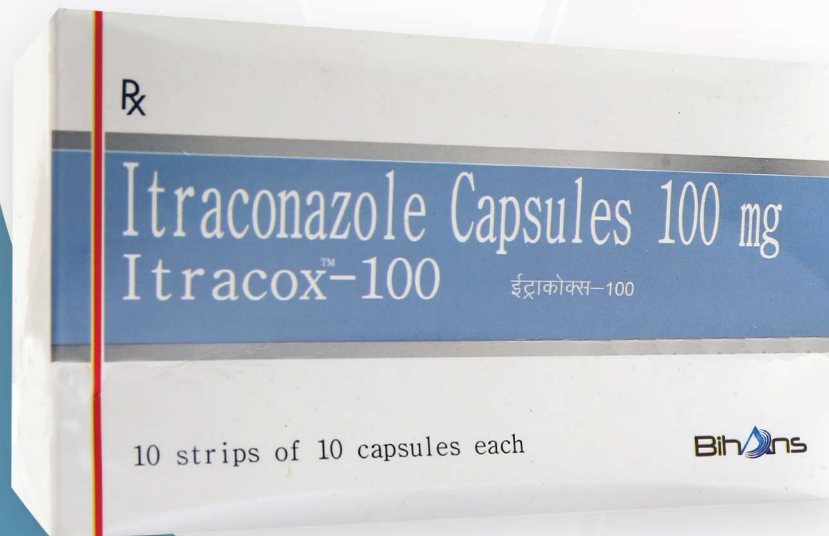

BECAUSE YOUR SKIN MATTERS

Itracoxi **100** **200**

Itraconazole Capsules 100/200mg

- Maximum response (90% clinical success rate)*
- Excellent tolerability profile*
- 10 Times higher tissue levels in skin area*

Eliminate the fungal infection with **Itracox**

Lulicox

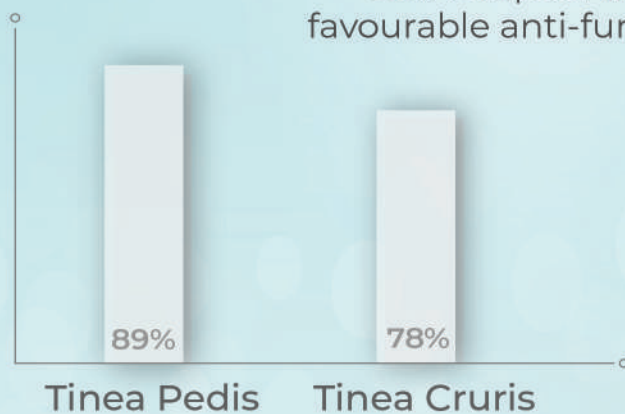

Cream
Luliconazole Cream 1% w/w

Wide spectrum USFDA approved therapy

Once a day for one week ensures successful result

Low relapse rate with favourable anti-fungal effect

Lulicox applied for 1 week in Tinea Cruris and 2 weeks in Tinea Pedis produces favourable Mycological Cure Rate

Efficacy % According to Core Evidence 2014;9-113-124

Chose Lulicox & Stay free from fungal infections
